INDEX TO VOLUME XIV

Arkowitz, M., and **Curjel, C. R.** Homotopy commutators of finite order (I) 213

Barry, P. D. On a theorem of Besicovitch 293

Bonsall, F. F. Algebraic properties of some convex cones of functions 225

Brown, R. Ten topologies for $X \times Y$ 303

Bushell, P. J. On the dependence of an eigenvalue on a parameter 106

Chatterjea, S. K. Operational formulae for certain classical polynomials (I) 241

Chaundy, T. W., and **McLeod, J. B.** Eigenvalues in problems with spherical symmetry and an associated integral 205

Coxeter, H. S. M., and **Tóth, L. Fejes.** The total length of the edges of a non-euclidean polyhedron with triangular faces . . 273

Cross, R. W. Existence theorems for linear equations in an infinity of unknowns 113

Curjel, C. R., see **Arkowitz, M.**

Davenport, H., and **Lewis, D. J.** Notes on congruences (I) . 51

—— Notes on congruences (II) 153

Daykin, D. E. The irreducible factors of $(cx+d)x^{q^m}-(ax+b)$ over $GF(q)$ 61

Eastham, M. S. P. Eigenvalue problems with the parameter in the boundary condition 259

—— A property of conjugate functions 291

Erdélyi, A. Note on a paper by Titchmarsh 147

Everitt, W. N. A note on the self-adjoint domains of second-order differential equations 41

—— Integrable-square solutions of ordinary differential equations (III) 170

Halberstam, H., and **Laxton, R. R.** On perfect difference sets . 86

Heyde, C. C. Some remarks on the moment problem (I) . . 91

—— Some remarks on the moment problem (II) 97

Higman, G. The lower central series of a free loop 131

Howie, J. M. Embedding theorems for semigroups 254

Kirby, D. A note on superficial elements of an ideal in a local ring 21

Lakshminarasimhan, T. V. On the mean value of the modulus of an entire function and its derivative 16

Lancaster, H. O. Canonical correlations and partitions of χ^2 . 220
Laxton, R. R., see **Halberstem, H.**
Lewis, D. J., see **Davenport, H.**
Liu Teng-Sun. Invariant subspaces of some function spaces . 231
McLeod, J. B. On the H_2^+ ion 65
——, see **Chaundy, T. W.**
Mercer, A. Mc. D. On integral transform pairs arising from differential equations of any even order 9
—— A generalization of Poisson's summation formula . . . 285
Mishra, R. S. Solutions of gauge-invariant generalization equations of field theories with asymmetric fundamental tensor . 81
Morris, A. O. The spin characters of the symmetric group (II) . 247
Neumann, P. M. Some indecomposable varieties of groups . 46
Northcott, D. G. Some remarks on the theory of ideals defined by matrices 193
Petersen, G. M. Consistency of summation matrices for unbounded sequences 161
Ruse, H. S. General solutions of Laplace's equation in a simply harmonic manifold 181
Ryff, J. V. On subdeterminants of some convex sets of matrices . 141
Steer, B. Generalized Whitehead products 29
Taussky, O., and **Wielandt, H.** On the role of the determinant in semigroups of matrices 123
Tóth, L. Fejes, see **Coxeter, H. S. M.**
Verblunsky, S. On some biorthogonal systems 1
Wielandt, H., see **Taussky, O.**
Yadao, G. M. Generating functions for associated legendre polynomials 120
